

DemoCo Limited - Annual Report FY24

This document is synthetic test data generated for pipeline verification.

It is not a real filing and contains no real financial information.

DemoCo Limited is a fictional company used to exercise the FilingsIQ ingestion and retrieval pipeline end to end.

Financial Highlights

Total revenue for FY24 stood at Rs. 48,250 crore, compared with Rs. 41,900 crore in FY23.

Earnings before interest and tax was Rs. 9,640 crore for the year.

Profit after tax was Rs. 7,180 crore.

The board recommended a final dividend of Rs. 24 per equity share.

Management Discussion and Analysis

Attrition moderated significantly during the year. Voluntary attrition on a trailing twelve month basis declined to 12.4 percent in FY24 from 19.7 percent in FY23.

The company added 8,400 employees on a net basis, taking total headcount to 214,000 as at 31 March 2024.

Utilisation excluding trainees improved to 85.1 percent.

Technology and Generative AI

The company established a dedicated generative AI practice during FY24. More than 270 client engagements involving generative AI were executed during the year.

Approximately 61,000 employees completed foundational training in generative AI technologies.

Management views generative AI as a durable growth driver rather than a short term cycle, while cautioning that revenue conversion remains early.

Segment Performance

Banking, financial services and insurance contributed 31.2 percent of revenue in FY24.

Retail and consumer packaged goods contributed 15.8 percent.

Life sciences and healthcare contributed 11.4 percent.

North America accounted for 51.3 percent of revenue, while India accounted for 6.2 percent.

Risk Factors

The company faces risks from client concentration, wage inflation, currency volatility in the rupee dollar rate, and regulatory changes affecting cross border service delivery.

Cybersecurity incidents could result in liability and reputational harm.
